UAR Global AI

Enterprise engineering. Without the enterprise price tag.

US-based IT services company delivering AI, custom software, Microsoft 365, cloud, and staff augmentation.
US leadership and accountability, delivered by our dedicated global team.

CAPABILITY STATEMENT

UARGLOBALAI.COM

CORE COMPETENCIES

AI & Machine Learning Solutions

Generative AI and LLM apps, AI agents, RAG, chatbots, Microsoft Copilot and Copilot Studio, Azure OpenAI, ML models, intelligent document processing, AI governance, data annotation.

Microsoft 365 & Teams Services

M365 deployment and administration, Teams, Teams Phone, Teams Rooms, Exchange Online, tenant-to-tenant migrations (M&A), Intune, Entra ID, Purview, Copilot readiness.

Custom Software & Application Development

Web and mobile apps, APIs and integrations, application modernization, maintenance and support.

Cloud Migration & Azure

Azure migration, infrastructure modernization, DevOps and CI/CD, data engineering, cost optimization.

IT Staff Augmentation

Software, AI/ML, QA, cloud, and Microsoft 365 engineers on contract, with US-based account management.

QA, Testing & Managed IT Support

Manual and automated testing; 24/7 monitoring, help desk, patching, M365 and endpoint administration.

DIFFERENTIATORS

- **Direct relationship.** Clients contract with us. No middlemen or layers of margin.
- **US accountability.** US-based leadership owns contracts, delivery, and escalations.
- **Lower cost.** Enterprise-grade quality at significantly less than large consultancies.
- **Deep Microsoft expertise.** Led by a Microsoft 365 Certified Teams architect with 15+ years of enterprise IT.
- **Follow-the-sun delivery.** Overnight progress and 24/7 support coverage.

ENGAGEMENT MODELS

- **Fixed-price projects**: migrations, assessments, AI pilots.
- **Dedicated teams**: staff augmentation on monthly or hourly terms.
- **Managed services**: retainers for ongoing support with 24/7 coverage.
- **Starter offers**: M365 security & tenant assessment · Copilot / AI readiness assessment · 2-week AI proof of concept.
